Description

CELLCOM - ACMP series are modified blowing agents. They are specially formulated chemical blowing agent for cross-linked LDPE and PP foam with chemically cross-linking by extrusion and continuous oven foaming process. CELLCOM-ACMP series are well dispersible in polymer compound and it is able to make coarse & uniform cell structure and smoother skin in the sponge.

As CELLCOM-ACMP series decomposes at a little bit faster rate, it is suitable for lower processing temperature without any special kickers or additives, than normal azodicarbonamide.

Application

PE, PP

Transport&Storage Precautions

Expiration Date : 1 year

Storage Instruction : Keep container tightly closed in a dry and well-ventilated place.

Transport : Avoid contact with a direct ray of light and moisture.

Using : Wear protective gloves, dust mask and goggles.

Disposal : Contact a licensed professional waste disposal service to dispose of this material.

Fire & Explosive : Non flammable, Non explosive. Decompose around 200°C

Extinguish Media : Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Packaging

25kg Carton Box / 25kg Bag
